

RESIDENTIAL INSIDE WIRING INSURANCE

What is NTS Residential Inside Wiring Insurance?

NTS Residential Inside Wiring Insurance is an optional monthly feature that can be added to any new or existing NTS service(s). The Insurance covers the cost to repair and/or replace any damaged or defective wiring and jacks inside the customer's home that were previously installed by an NTS Technician.

Why do you need it?

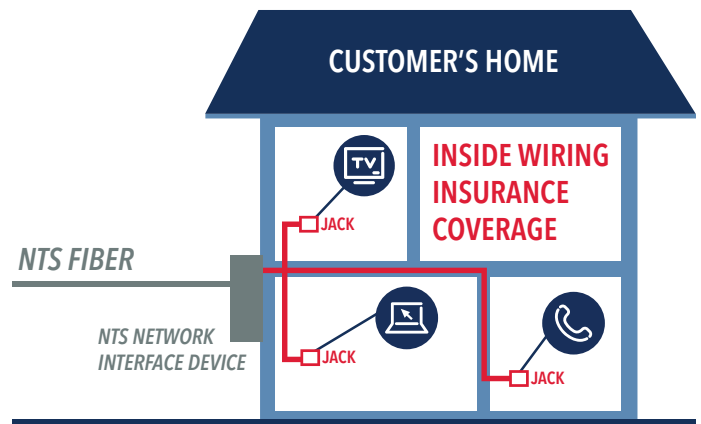

Things like everyday wear and tear can cause damage to the wiring and jacks inside your home. The monthly fee you pay for your NTS services (Internet, Phone, Video) does not cover these types of repairs. That means the cost to dispatch a technician to your home, plus the cost of labor and materials, would be your responsibility.

With Residential Inside Wiring Insurance, for a low monthly fee, you won't have to pay for unexpected repairs to your inside wiring or jacks!

How much does it cost?

NTS Residential Inside Wiring Insurance costs only \$4.99 per month. This low monthly fee will provide you with peace of mind and protection against unexpected repair costs.

Less than 25¢ per day!

*Cost to repair and replace wiring and jacks shown above in **RED** are covered by Inside Wiring Insurance. Without the Insurance coverage, the customer will be required to pay the full cost to repair or replace these items if needed.*

RESIDENTIAL INSIDE WIRING INSURANCE COVERAGE DETAILS
